Resolution:	Unresolved	Votes:	0
Labels:	None		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		
Original estimate:	Not Specified		

Attachments:	 image-20260801-062151.png
Rank:	0ji0005z:
Sprint:	MSP Sprint 2

Description

Steps to reproduce:
1. Login as a valid user 2. Book a flight with valid data 3. Pay for the flight
Expected result:
There should be a button to return and book a new flight
Actual result:
User is stuck in the flight information page and cannot go back.
Environment:

[MSP-2] Booking -> Identical departure and returning locations are accepting

Sprint:	MSP Sprint 2

Description

Steps to reproduce:

1. Open Select Flight page

2. Select same location from both "From" and "To"

3. Then select any dates and click "Continue"

Expected result:

User should not be able to proceed with same From and To location

Actual result:

Proceed with same From and To location

[MSP-3] [Booking -> Payment -> Payment is successfully processed with an invalid Card Holder Name](#) Created:

Sprint:	

Description

Impact

Users can complete a payment with an invalid Card Holder Name.
This allows an invalid booking to be processed successfully.

Expected behaviour

The system should validate the Card Holder Name field.
It should reject invalid input such as numeric-only or single-character values.
A validation message should be shown.
Payment should not be processed until a valid cardholder name is entered.

Actual behaviour

The payment is processed successfully.
The booking confirmation page is displayed even though the Card Holder Name contains an invalid value, such as "1".

Steps to reproduce

- Login as a valid user.
- Book a flight with valid details.
- Proceed to the payment page.
- Enter an invalid Card Holder Name, for example "1".
- Enter valid payment details for the remaining fields.
- Click **Pay now**.

Environment

- Application: AgileWay Travel
- Module: Flight Booking – Payment
- Browser: Google Chrome
- OS: Windows

Workarounds

N/A

Other information

The issue name is: Booking -> Payment -> Payment is successfully processed with an invalid Card Holder Name.

[MSP-4] [Booking -> Passenger details -> System allows flight booking to proceed without selecting a Destination](#) Created: 01/Aug/26 Updated: 01/Aug/26

Status:	To Do
Project:	My Scrum Project
Components:	None
Affects versions:	None
Fix versions:	None

Type:	Bug	Priority:	Low
Reporter:	Risandu Devmika	Assignee:	Unassigned
Resolution:	Unresolved	Votes:	0
Labels:	None		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		
Original estimate:	Not Specified		

Attachments:	 image-20260801-125721.png
Rank:	0ji0006n:
Sprint:	

Description

Steps to Reproduce:

1. Login as a valid user.
2. Navigate to the flight booking page.
3. Select a valid **From** location (e.g., Sydney).
4. Leave the **Destination (To)** field blank.
5. Select a valid travel date.
6. Click **Search/Next** to proceed with the booking.
7. Continue to the Passenger Details page.

Expected Result:

The system should prevent the user from proceeding and display a validation message indicating that the **Destination** field is mandatory.

Actual Result:

The system allows the user to proceed to the **Passenger Details** page even though no destination is selected. The flight information is displayed as **"Sydney to"**, indicating an incomplete itinerary.

Environment:

- Application: AgileWay Travel
- Module: Flight Booking
- Browser: Google Chrome (as shown)
- OS: Windows (based on screenshot)

[MSP-5] [Booking -> Select Flight -> System allows flight booking to proceed without selecting an Origin](#) Created:

Sprint:	

Description

Steps to Reproduce:

1. Login as a valid user.
2. Navigate to the flight booking page.
3. Leave the **Origin (From)** field blank.
4. Select a valid **Destination** (e.g., New York).
5. Select a valid travel date.
6. Click **Search/Next** to proceed with the booking.

8/1/26, 7:16 PM

Jira

7. Continue to the Passenger Details page.

Expected Result:

The system should prevent the user from proceeding and display a validation message indicating that the **Origin** field is mandatory.

Actual Result:

The system allows the user to proceed to the **Passenger Details** page even though no origin is selected. The flight information is displayed as **"to New York"**, indicating an incomplete itinerary.

Environment:

• Application: AgileWay Travel

• Module: Flight Booking

• Browser: Google Chrome

• OS: Windows

[MSP-6] **Booking -> Payment is successfully processed when all mandatory payment fields are left empty** Created:

01/Aug/26 Updated: 01/Aug/26

Status:	To Do
Project:	My Scrum Project
Components:	None
Affects versions:	None
Fix versions:	None

Type:	Bug	Priority:	High
Reporter:	Risandu Devmika	Assignee:	Unassigned
Resolution:	Unresolved	Votes:	0
Labels:	None		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		
Original estimate:	Not Specified		

Attachments:	 image-20260801-131701.png
Rank:	0 j00073:
Sprint:	

Description

Steps to Reproduce:

1. Login as a valid user.

2. Book a flight with valid origin, destination, travel date, and passenger details.

3. Proceed to the **Payment** page.

4. Leave all mandatory payment fields empty:

• Card Type

• Card Holder's Name

• Card Number

5. Leave the default expiry date unchanged (or do not modify it).

6. Click **Pay now**.

Expected Result:

The system should validate all mandatory payment fields and prevent the payment from being processed. Appropriate validation messages should be displayed for each required field.

Actual Result:

The system processes the payment successfully and displays the booking confirmation page even though all mandatory payment fields are left empty.

- OS: Windows

[MSP-7] [Booking -> System allows selection of an invalid calendar date \(31 February\)](#) Created: 01/Aug/26 Updated: 01/Aug/26

Status:	To Do
Project:	My Scrum Project
Components:	None
Affects versions:	None
Fix versions:	None

Type:	Bug	Priority:	Medium
Reporter:	Risandu Devmika	Assignee:	Unassigned
Resolution:	Unresolved	Votes:	0
Labels:	None		
Remaining Estimate:	Not Specified		
Time Spent:	Not Specified		
Original estimate:	Not Specified		

Attachments:	 image-20260801-132030.png
Rank:	0 j0007b:
Sprint:	

Description

Steps to Reproduce:

1. Login as a valid user.
2. Navigate to the **Select Flight** page.
3. Select **Return** trip.
4. Enter valid **Origin** and **Destination**.
5. Select a valid **Departure** date.
6. In the **Returning** date, select:
 - Day: **31**
 - Month: **February**
7. Click **Continue**.

Expected Result:

The system should prevent users from selecting an invalid calendar date (e.g., **31 February**). The date picker should either:

- Disable invalid dates, or
- Display a validation message and prevent the booking from proceeding.

Actual Result:

The system allows the user to select **31 February**, which is not a valid calendar date, and proceeds with the booking process.

Environment:

- Application: AgileWay Travel
- Module: Flight Booking – Date Selection
- Browser: Google Chrome
- OS: Windows
